

**RENEWAL OF AN
AGREEMENT FOR A PROGRAM OF ACADEMIC LINKAGE AND
COOPERATION BETWEEN**

THE UNIVERSITY OF CHILE (Santiago, Chile)

AND

CARLETON UNIVERSITY (Ottawa, Canada)

ARTICLE I: OBJECTIVE OF THE LINKAGE

The general purpose of this agreement is to facilitate academic cooperation between the University of Chile and Carleton University. This cooperation will normally have three related components: joint research, faculty exchange and student exchange.

ARTICLE II: AGREEMENT

2.1 The office of the Director of Carleton International will have the responsibility for the general administration of the agreement at Carleton University, with the student exchange component to be administered by the International Student Services Office (ISSO). At the University of Chile the Agreement will be administered by the Office of the Director of International Relations at the School of Economic and Business.

2.2 The main academic units involved in this academic cooperation agreement will be the Sprott School of Business at Carleton and the School of Economics and Business at the University of Chile. The administrators of this Agreement will establish the implementation procedures directly with the academic units involved.

2.3 The academic cooperation agreement may also involve other faculties and academic units by mutual consent. Each new initiative will be described as an Addendum to this Agreement.

2.4 A specific aim of this agreement is to institute and conduct an academic exchange of both faculty members and students. Normally this would involve an equal number of individuals from both sides.

2.5 Faculty members and students from Carleton University and the University of Chile will visit the other institution in order to participate in joint research projects and educational programmes.

2.6 Students will register in academic programs and pay the normal (tuition) fees to their home university; no other tuition fees will be payable, except in cases where the student concerned chooses to register in a formal degree program in the other institution. In the case of Carleton University, incoming exchange participants are required to enroll in a mandatory university health plan at their own expense. Exchange students entering

Universidad de Chile are required to have full medical and dental insurance prior to departure from their home country.

2.7 Carleton University and the University of Chile will suggest suitable accommodation for the faculty members and students visiting Ottawa and Santiago respectively; the individual visitors will be responsible for the cost of such accommodation and for their own travel costs.

2.8 Both universities will make efforts to seek funding to support the exchange where appropriate.

ARTICLE III: VALIDITY

3.1 The program is intended to be renewed commencing January 2008 for a period of three years.

3.2 The agreement may be renewed for further periods of three years by mutual agreement or may be terminated by either side at one year's notice.

3.3 Amendments to this Agreement may be made at any time, by correspondence, and only when agreed upon by both parties.
